About WACP

World Academy of Career Programmes (WACP) is an educational research organization that offers career related courses in accounts, Finance, Technology, Healthcare and Design. Our association with prominent schools and higher educational institutions & universities provide students with a structured pathway to specialized qualifications in these streams.

WACP commands a robust network within the industry and thereby offers unmatched practical training, internships and placements. We are passionate about offering the right blend of practical knowledge and experience, creating a truly futuristic curriculum aimed at producing highly skilled individuals and a launch pad for entrepreneurs. Our core team of progressive leaders along with our experienced faculty and competent operations, lead us towards growth and excellence.

About FV

Industry Collaborator

Future Varsity is an institute dedicated to developing highly trained professionals in the field of Artificial Intelligence. With the focused aim of creating professionally, academically and ethically sound AI Developers, Future Varsity contributes to this burgeoning space in the World.

Future Varsity recognized the need for accelerating formalised education through collaborations with recognised University, colleges & institutions. Formal education in Artificial Intelligence equips candidates with knowledge & skills in identifying the need for becoming experts in the industry. Future Varsity instils its students with basic and advanced theories and techniques in Problem Solving, Human Computer Interaction (HCI), Python Programming & Machine Learning.

CAREER PROGRAMMES

ARTIFICIAL INTELLIGENCE INDUSTRY

The place to be!!

Artificial intelligence is drastically important to our future because AI forms the very foundation of computer learning. Through AI, computers have the ability to harness massive amounts of data and use their learned intelligence to make optimal decisions and discoveries in fractions of the time that it would take humans. Artificial intelligence is becoming responsible for everything from medical breakthroughs in cancer research to cutting-edge climate change research.

EVOLVING INDUSTRY

Robotics and AI driven decision making are becoming an integral part of businesses in today's marketplace. It has created a surge in the need of professionals who can adapt and work with these technologies to improve efficiencies and precision.

RISING DEMAND FOR PROFESSIONALS

The industry is always in need of smart and intellectual professionals who are able to use AI technologies for predictive decision making and to automate systems thus reducing human dependence. This is one of the most lucrative roles and sky is the limit for those who have a flair for it.

DIVERSE CAREER OPTIONS

The industry offers opportunities to students of all personalities, leadership skills and domain specializations. Students may pursue lucrative positions in areas of Analytics, Big data, Research, strategy, among a host of many other options.

IDEAL FOR GO-GETTERS

Out-of-the-box thinking, analytical & computational abilities, and a creative spark are the three things that makes a good business analytics manager and if these three qualities fit your profile, you're on the right path!

CAREER PROGRAMMES

ARTIFICIAL INTELLIGENCE

INTERNATIONAL
DIPLOMA
(GRADE 11)

INTERNATIONAL
ADVANCED DIPLOMA
(GRADE 12)

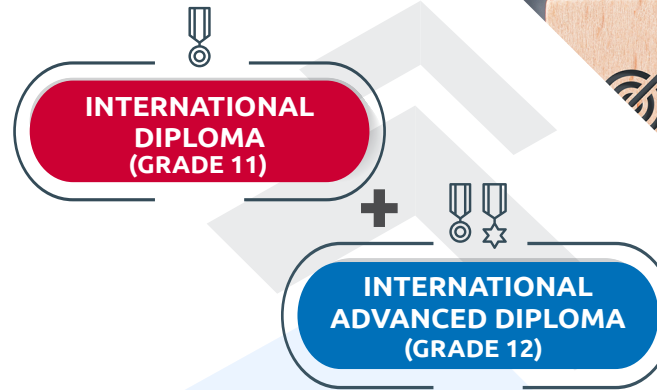

WACP offers a combination of two qualifications in Artificial Intelligence - International Diploma and International Advanced Diploma. Both courses together provide a broad overview of the AI functions and a strong foundation in key Artificial Intelligence skills comprising of Programming, Python Programming, Human Computer Interaction (HCI), etc. The courses provide an avenue for students to gain theoretical and practical skills needed to operate within the Industry.

The International Diploma and International Advanced Diploma in Artificial Intelligence are suitable for students wanting to pursue their Career Studies in Artificial Intelligence. The programme aims to strengthen their understanding of the subject and achieve incremental knowledge and specialisation between the two qualifications. These programmes provide theories, in order to understand the complex nature of the different functions of the industry

INTERNATIONAL
ADVANCED DIPLOMA
(GRADE 12)

GRADE XI

- Introduction to Artificial Intelligence
- Artificial Intelligence for Society and Ethics
- Mathematics for Artificial Intelligence – I
- Data Mining
- Programming for Problem Solving
- Design Thinking for Innovation
- Modern Day Apps and Human Computer Interaction (HCI)
- Python Programming
- Artificial Intelligence Programming
- Capstone – I

GRADE XII

- Mathematics for Artificial Intelligence – II
- Data Analytics
- Machine Learning
- Computational Linguistics and NLP, Vision and Speech
- Critical and Creative Thinking
- Application of Artificial Intelligence and Machine Learning in Industries (Domain)
- Full Stack Development
- Deep Learning
- The Art of Story Telling
- Capstone – II

TEACHING AND STRUCTURE

At WACP, we are committed to the holistic development of our students to ensure superior outcomes and strong employability prospects. Teaching methodology comprises of classroom sessions, master classes, case studies, practical training, group work and discussions. The approach is to have the right balance of theory, practice and experience. The "Real World Relevance" is vital throughout the programme.

EXPERIENTIAL LEARNING

SIMULATED EVENTS

We have developed an exceptional methodology that helps replicate the process of managing large data analytics and AI projects within the classroom set up. Students are trained to conceptualise and incorporate AI applications in multiple functions across industries. This exercise gives them an opportunity to experience the rigors of managing process efficiencies and predictive decision making to meet challenges.

WORKSHOPS

To keep our students updated with the current affairs in the world of Artificial Intelligence, we frequently organize uniquely designed workshops that focus on industry-oriented themes shortlisted by our team of experts.

SESSIONS

WACP will provide comprehensive CRS Training to the school faculty

ASSIGNMENT & PROJECTS

Assignment and projects are a part of our curricula. These provide our students ample opportunities to meet, interact and build relations with popular and experienced individuals in the Industry, under the able guidance of our dedicated faculty.

MASTER CLASSES

Master Classes intend to keep students abreast to the latest trends in AI, machine learning, natural language processing and global think tanks. Guest speakers from various industries share their knowledge and help students gain insights about the industry, governance and managing the dynamics of large data interpretations.

CASE STUDIES

Our curriculum includes the use of case studies in order to highlight various practical and situational issues. The brainstorming and discussions help streamline our student's thought processes and sharpen analytical abilities by exploring, identifying and solving issues.

CAREER PROGRAMMES

ARTIFICIAL INTELLIGENCE

ASSESSMENT

- WACP CRS has ongoing, continuous assessment, and students will receive Certification only after successful completion of the assignments & assessments.
- In line with WACP Commitment to practice-based education, a large part of the assessment will relate to the demonstration of the student's ability to synthesize classroom learning with real life scenarios of managing and running business.
- Students will encounter many different kinds of assessment methods, for example: written exams, written assignments, portfolios, project work, reports, individual or group oral presentations and practical skills assessment.
- The CRS will be assessed summatively, end of year assessments will take place in Year 1 & Year 2. It will be externally moderated by WACP.

INNOVATIVE & INTERACTIVE LEARNING TECHNOLOGY

BYOD PROGRAM

The Bring Your Own Device (BYOD) Program enhances the students' learning experience through the use of online and mobile technologies within and outside the classroom, allowing them to work on course materials, participated in a collaborative learning environment, thus making them tech-savvy.

YOUTUBE BROADCASTING

We broadcast our students' presentations and creations on YouTube; providing them with an opportunity to share their ideas and creations with the world.

PREZI PRESENTATION

This is an inventive and refreshingly unique presentation tool that allows students to express their ideas skilfully and explore their creativity

EDUCATIONAL NEWSLETTERS

Our Educational Newsletters feature our institutes' highlights and students' achievements, and also report latest industry trends, growth and major event.

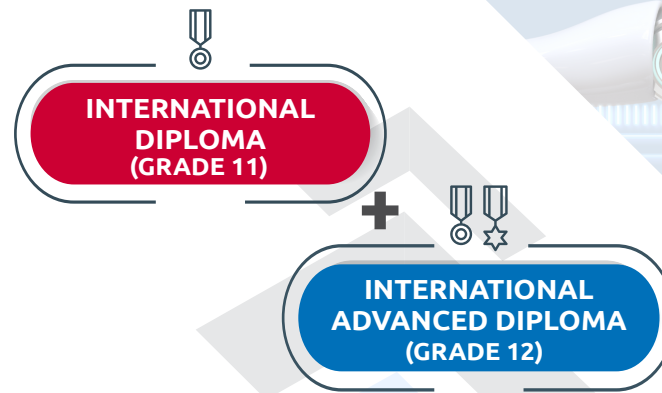

COMMUNICATION AND COLLABORATION

We provide education on Google Apps. Our students learn to use portals like Webmail Services, Shared Calendars, Hangout and the Drive. G Suite allows our faculty to collaborate with students, give them instant feedback, track individual progress and help students streamline their writing and research.

CAREER PROGRAMMES

ARTIFICIAL INTELLIGENCE

HIGHER EDUCATION

PATHWAY

WACP counsels its students and assists them in planning their higher education journey by linking them with prominent universities worldwide. Upon completion of the IBCP programme with CRS in International Diploma and International Advanced Diploma students can opt for their choice of Undergraduate and Master's degree programmes in Artificial Intelligence.

Students can explore higher studies and specialisations. They can aspire to work in a variety of fields, in different capacities. Here is a list of some opportunities:

- **Data Analyst**
- **Data Engineers**
- **Machine Learning Engineer**
- **Computer Vision Engineer**
- **Data Scientist**
- **Robotic Scientist**
- **Statistician**
- **Business Analyst**
- **Data and Analytics Manager**

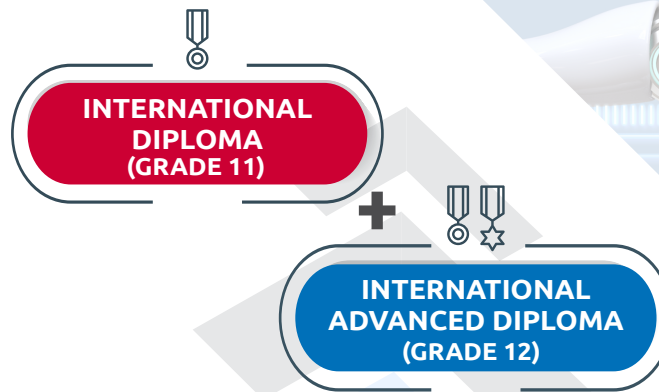

AND MANY OTHERS

CAREER PROGRAMMES

ARTIFICIAL INTELLIGENCE

CERTIFICATES

The WACP - CRS Certifications are coveted qualifications which recognize outstanding students by substantiating their conduct and professionalism to prospective employers. Academic excellence, dedication, project work, ingenuity and originality of ideas, communication skills coupled with a certain degree of confidence and flair are a few of the requisite attributes necessary to be awarded the WACP-CRS Certifications. It boosts one's academic and resume credentials and gives an added advantage over other candidates in the world. WACP offers higher education career counselling to IBCP students so that they can make informed career choices. In some countries due to regulations and requirements of institutions we may offer "Certificate" qualifications instead of "Diploma" qualifications.
